

# ***Nuestras Historias: 10 Years Later!***

*Here is what some Latina cancer survivors have been up to in the last 10 years since sharing their stories in Nuestras Historias: Mujeres Hispanas Sobreviviendo el Cáncer del Seno (Our Stories: Hispanic Women Surviving Breast Cancer)!*

## **Gloria Diaz**

**1. How would you describe your current breast health?**

My current breast health is fine.

**2. How did the experience of being featured in the book impact your life and your family's life?**

Being featured in the book impacted my life by reminding me how grateful I was to conquer this battle and made me live life to the fullest every day since then. This book impacted my family's life in a positive way. They were able to read about my struggles and saw how I was able to get through my journey with their love and support.

**3. Is there anything that you know now that you wish you had known when you were diagnosed with cancer? Why?**

No.

**4. What advice do you have for other women recently diagnosed with breast cancer?**

My advice to them is to have faith and believe that through prayers and love from friends and family they, too, will conquer this battle.

**5. What accomplishments/milestones have you experienced in the past 10 years that you're proud/grateful for?**

One of my accomplishments is that I have been able to overcome this journey and this was possible with God's love, prayers and my family's support.

**6. What does survivorship mean to you?**

Survivorship to me means that God gave me a second chance for life and I am eternally grateful for that.

**7. What challenges, if any, do you still face as a survivor?**

None.

**8. What are your hopes for the near future?**

That a cure for all types of cancer is found.
